

**FULL
IMPERIAL**

IMPERIAL SHEETS

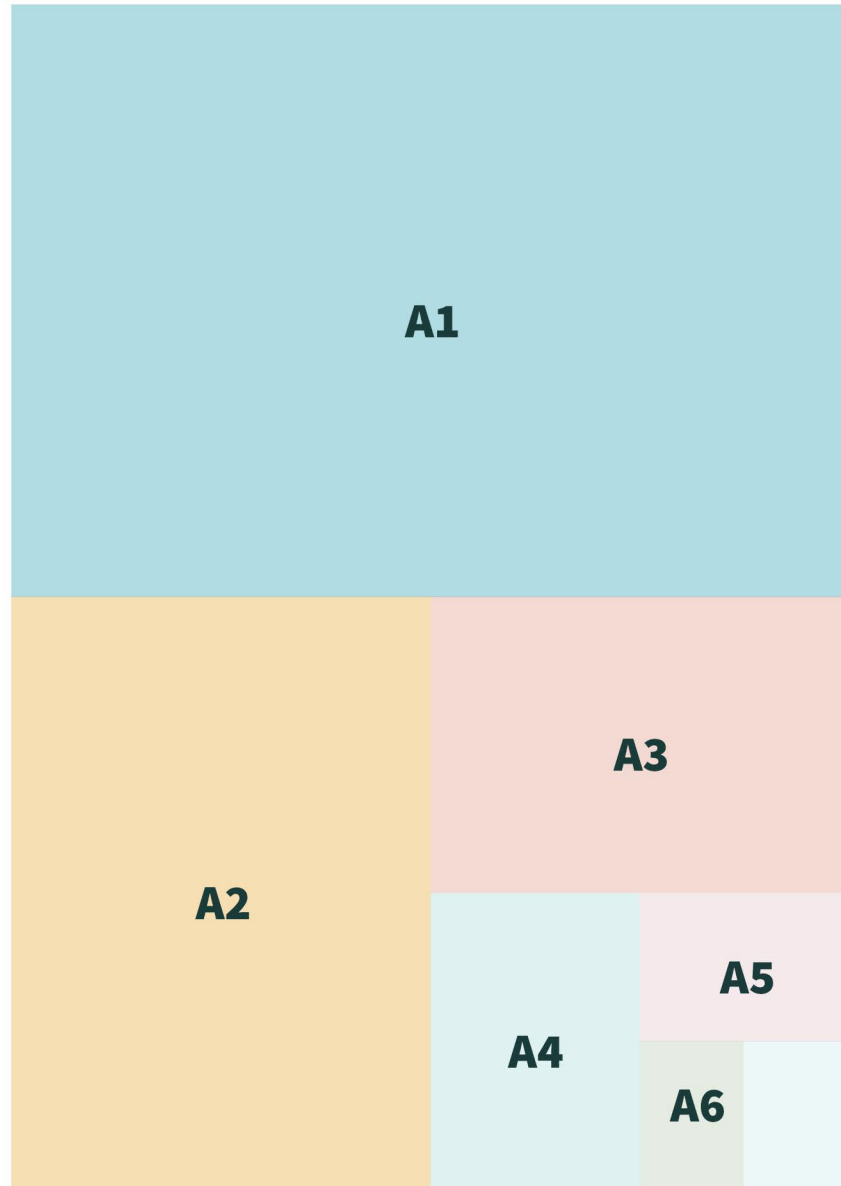

Full Imperial is a traditional sheet that forms part of the British Imperial System of paper sizing. A Full Imperial sheet can also cut down into half or quarter sheets if you prefer to work on a smaller scale. Depending on the brand of paper you buy, a full imperial sheet can have up to four deckled edges and is usually watermarked in one corner.

SIZE	MM	IN
FULL IMPERIAL	559 x 762	22 x 30
HALF IMPERIAL	381 x 559	15 x 22
QUARTER IMPERIAL	279 x 381	11 x 15

ISO 'A' SIZES

ISO A Paper sizes are a standardised system of paper dimensions ranging from A0 (the largest) to A10 (the smallest). They're designed for easy scaling, with each size precisely half the area of the one before. For example A1 is half the size of A0, A2 is half the size of A1 and so on. A4 is the most common paper size globally and is the size of a standard sheet of printer paper.
