# Sronleys ART SUPPLIES

# **Dear Artist,**

It's been a while since our last catalogue, but the wait is over we're thrilled to be back with a fresh new look as Bromleys Art Supplies. We hope you'll like the new look as much as we do! If you've had a chance to explore, you might have noticed our brand-new website – a testament to our ongoing commitment to providing you with the best online shopping experience. And there's more to come! Keep those eyes peeled for additional enhancements in the coming months. We value your feedback and ideas, so don't hesitate to share - many of our best improvements come from you, our fantastic customers!

Within the pages of this catalogue, you'll rediscover your old favourites and stumble upon some exciting new additions. Pages 12 and 13 unveil the latest watercolour ranges from Michael Harding and Rosa, while page 19 invites you to explore Daniel Smith Gouache. Make sure not to miss the Logan Mount cutters on page 72 and a range of printmaking equipment on page 73 including our NEW gel printing plates. While we've done our best to present a diverse range here, our website boasts an even larger selection, continuously evolving with new arrivals. Keen to stay in the loop about our latest products? Be sure to sign up for our email newsletter!

We want to extend a heartfelt thank you for your continued support and companionship on this artistic journey. Here's to many more creative adventures together!

### **Happy Painting!**

#### WINSOR & NEWTON PROFESSIONAL WATERCOLOURS

# WINSOR & NEWTON PROFESSIONAL WATERCOLOURS

The world's finest water colour, offering the widest choice of pigments and the highest possible permanence.

Since 1832 when Henry Newton and William Winsor introduced the first moist water colours to the world, much of the Winsor & Newton reputation for supreme quality has stemmed from the Artists' Water

Since then Winsor & Newton Professional Water Colour continues to be formulated and manufactured according to these founding principles; to create an unparalleled water colour range which offers artists the widest and most balanced choice of pigments with the greatest possible permanence.

Each colour within this wide and balanced spectrum of 107 colours has been selected and formulated to offer the greatest choice so that artists can use a unique palette that best suits their work.

Inormally use the Cotman range, but decided to treat myself to some prefessional half pans. What an eye opener! The colours are so saturated and vibrant, I think I will be changeing over to W&N Professional.

### **TUBES**

Tube colour is more popular overall, favoured by regular users and those who use high volumes of colour or stronger washes of colour.

Of course, artists can use both tube and pan together if they wish. Many painters have both, as pan colours are useful when travelling and sketching.

The full range of colours are available in 5ml and 14ml Tubes with colours marked with † available in 37ml tubes.

Perfect when you require larger volumes and stronger washes of colour

# **PANS**

Half and whole pans are preferred by artists who paint outdoors and those using smaller quantities of paint.

The full range of Professional Watercolours are available in half and most colours in whole pans.

Unparalleled water colour range which offers artists the widest and most balanced choice!

#### DANIEL SMITH EXTRA FINE WATERCOLOUR STICKS

Daniel Smith Watercolour Sticks offer remarkably rich, vibrant colour and the same pure artists' pigments as their Paint Tubes. The stick can be used wet or as a dry drawing implement to bring an interesting mixed-media element to your work. The sticks can also be used like a traditional pan colour, try wetting your watercolour brush and lifting colour directly from the surface of the stick! Each stick offers exceptional value as a stick is equivalent

to 3 whole pans of watercolour. All the sticks are the same price, which even includes a selection of PrimaTek

For  $\ensuremath{\mathrm{KEY}}$  see page 8, properties are same as the main Daniel Smith range.

Schmincke Horadam Aquarell **Super Granulating Watercolour** Paints offer the same professional quality as their standard range, but with enhanced granulating properties.

Split into 10 thematic groups - Deep Sea, Glacier, Galaxy, Forest, Tundra, Volcano, Shire, Desert, Haze and Urban - each colour from this range combines at least two granulating pigments, and pigments from different colour groups. Use them on textured papers to watch the play between colours and texture.

# WATERCOLOURS

#### ROSA GALLERY WATERCOLOURS

Manufactured in Ukraine, Rosa Gallery watercolour paints are made using organic Gum Arabic and finely ground artists pigments. Each colour is rigorously tested to ensure intense, brilliant colour with optimal transparency. These paints are also easy to rewet and have excellent handling.

With a high ratio of single pigment colours, you'll find it easier to create clear, bright mixes. Made in collaboration with professional artists, these paints are made with consideration of the needs of the contemporary watercolourist. Available in 80

colours in pans and 10ml tubes.

#### DALER ROWNEY FW ACRYLIC INKS

FW Artists' Ink is an acrylic based pigmented water resistant ink ideal for the production of pictures for permanent display. Colours can also be substantially diluted to achieve the most subtle of tones, very similar in character to watercolour. Such washes will dry water resistant. FW Artists' Inks work well through airbrushes and technical pens which can be cleaned by using Airbrush Cleaning Fluid.

These paints are professional grade paints, and are made to the same high standards as the brand's Extra Fine Watercolours. They also use two of the same high quality ingredients - gum Arabic and finely ground pigment - but use a higher load of pigment to achieve dense, opaque colour. There are no fillers or white pigment added to enhance opacity.

#### PRIMARY MIXING SET

Includes four tubes of professional grade gouache paints. Use these three colours alone to mix secondary greens, oranges and purples, then use Titanium White to adjust the shades. Titanium White

HEAVY

BODY

#### **SOFT VS HEAVY**

So what is the difference between Heavy and Soft Body?

If you thought Soft Body was just a watered down Heavy Body, you'd be wrong. The two paints have compatible binders and pack the same high pigment load.

If you thin Heavy Body with water or medium, you reduce the

concentration and get noticeably weaker colours. Paint feel, performance and stability is also impacted, so choose the right consistency of paint for the job!

#### LIQUITEX HEAVY BODY

Heavy Body Artist Acrylic Paint, has a thick consistency for traditional art techniques using brushes or knives, as well as for experimental, mixed media, collage and printmaking applications. Impasto applications retain crisp brush stroke and knife marks. Good surface drag provides excellent handling and blending characteristics with increased open-working time. High pigment load produces rich, brilliant, permanent colour. Available in 109 colours in 59ml tubes with black and white also in larger sizes.

Liquitex offers a range of acrylic mediums to inspire creativity at every stage of the painting process.

Liquitex mediums enable artists to modify acrylic paint and use it in an infinite variety of techniques and applications. Liquitex mediums mixed into acrylic colours can change paint consistency, thickness, transparency, sheen, drying rate, absorption rate and even texture. Compatible with all acrylic paints in this catalogue.

#### **SURFACE PREPARATION**

Surface preparations seal, prime and add tooth (for adhesion) to surfaces such as canvas, wood, paper and metal for acrylic and oil paint. Liquitex Gesso is flexible, non-cracking and non-yellowing when dry.

#### **GESSO**

The classic sealer and ground for absorbent surfaces (canvas, paper, wood and metal). Provides the proper surface texture and absorbency for acrylic/oil paint.

#### **ADDITIVES (4)**

Additives allow the artist to adjust the working properties of acrylic paint. Can be used to increase the flow, opacity, or thickness and more. Use sparingly and only in the amount needed to achieve the desired effect.

#### FLUID MEDIUMS (3)

Fluid mediums modify acrylic paints in a variety of ways, unlike additives, they contain acrylic resins, so adhesion and durability are maintained or enhanced. They reduce viscosity of heavier paints and gels, tend to self-level and do not retain brush strokes.

#### **EFFECTS 3**

Add texture, alter viscosity, or use for specialist techniques. They may be mixed with acrylic colours or mediums and will dry flexible, nonyellowing and water-resistant.

### **GELS & PASTES 6**

Gel mediums modify acrylic paints in a variety of ways. They increase the body of thinner acrylic paints, tend to retain brush strokes and the detail of built-up surfaces.

#### GLAZING MEDIUM **G**

For creating brilliant jewel-like glazes. Excellent brushing and levelling qualities. Dries quickly for rapid layering.

#### DRYING OILS **0**

These are the vegetable oils used to make oil colour. They are used to modify the consistency and drying time of colour in much the same way as prepared mediums.

See our website for our full range of Winsor & Newton Oil Painting Mediums

#### **SOLVENTS 9**

Solvents are used to dilute colour, as well as for cleaning brushes and palettes. Artists' grade solvents leave no residual matter behind. DIY grade solvents are not refined to the same degree, and will often leave a tacky painting surface and a paint film that won't fully dry.

#### MEDIUMS **(1)**

Mediums are additives which alter or enhance the characteristics of the colour.

OILS

All mediums should be used in moderation, they are intended only as an additive to the colour. In addition, you should avoid adding multiple mediums to the colour.

#### **BRUSH CLEANER**

Removes dried oil, alkyd & acrylic colour from brushes. Soak in the cleaner overnight & scrub if necessary. Cleanable with water.

Bob Ross's goal was to introduce the world of art to people who otherwise would never be able to enjoy the fun and excitement of painting.

Bob Ross has been on over 250 channels and has lectured throughout the world on his Joy of Painting

#### LANDSCAPE OIL COLOURS

Specifically formulated to a stiff but smooth consistency, necessary for the Ross technique. Background colours are heartier in body than the lighter colours. These pigment rich colours yield an endless number of natural colour combinations and are all non-toxic.

 $\label{thm:manufactured} \mbox{Manufactured from pigments suspended in oil-modified alkyd resin and solvent.}$ The clarity of the alkyd resin allows the full brightness of pigment to show when the colour is dry.

Also ideal for impasto techniques whilst their luminosity and speed of drying makes them an ideal choice for glazing techniques when used with Liquin medium. Griffin Alkyds can be used in conjunction with other oil colour to produce an extensive range of tones and colour shades.

Artisan is a genuine oil colour made from modified linseed oil and modified safflower oil. It has been specifically developed to appear and work just like conventional oil colour.

The key difference between Artisan and conventional oils is its ability to thin and clean up with water. Hazardous solvents are not necessary for Artisan and artists can enjoy a safer painting environment, making it ideal for

artists who share a work space, schools or painting at home. The depth of colour, buttery consistency, lightfastness, opacity/ transparency, performance and drying times of Artisan allow artists to use this range for all oil colour techniques.

All 40 colours in the range are available in 37ml tubes. There are two series; Series 1 colours are also available in 200ml tubes.

Colours (Subject to variation): Tit White, Yell Ochre, Phthalo Green B/S, French Ultra, Perm Aliz Crim, Lemon Yell, Cerulean Blue Hue, Cad Yellow Hue, Cad Red Hue, Burnt Umber.

### NITRAM LIQUID CHARCOAL

A fluid, water soluble charcoal in a tube. This innovative medium allows you to easily transition between the lightest greys to the richest blacks simply by diluting with water. Used straight from the tube, Liquid Charcoal is as thick as oil paint - in fact it can even be applied using a palette knife! Once applied it does dry very quickly.

OUR PRICE 50ml NIT700337 £31.50 £24.22

### 3 AQUAFINE ROUND BRUSH

A versatile candle-flame shaped brush, used for sweeping washes of colour as well as touching in fine lines and detail.

Aquafine uses Daler-Rowney's unique formulation of thick and thin

filaments, tapered to a point, as well as different lengths to become a remarkable imitation of natural sable hair.

Traditionally, the highest quality watercolour papers have always been manufactured from cotton fibres, which impart strength and durability to the sheet. The term 100% rag is still used to denote pure cotton fibre content and freedom from any wood pulp.

High quality artist papers are made on a mould machine, which provides all the appeal of hand made paper, but without the inevitable variations from sheet to sheet. Additionally, the best papers are manufactured to be acid free, thereby preventing degradation.

There are three main surface textures to watercolour papers, HP, CP (NOT) and Rough.

**HP** stands for 'hot pressed' and is the smoothest paper suitable for high detail work

CP stands for 'cold pressed' (and is also known as NOT - as in 'not hot pressed') is a slightly textured surface and popular because it is suitable for most types of work.

**Rough** is exactly what its name suggests, suitable for landscapes, seascapes etc. where a heavily textured paper enhances the final piece of work.

When heavy washes are used on lighter weight paper, stretching is recommended otherwise the paper will buckle or cockle.

See page 87 for our Ken Bromley's Perfect Paper Stretcher and stretch your watercolour paper 'tight as a drum' every time!

#### What is a Block?

Unlike a pad, on a block the paper is glued on all four sides with a strong backing board and this supports the paper to an extent. Blocks are convenient if you are doing a light wash and do not want to stretch your watercolour paper and are handy to take on holiday or away on trips.

Generally there will be a small gap in the adhesive on a corner, or one of the longest sides of the block; a knife can be slipped into this gap and run around the edges of the paper to remove the top sheet.

#### ARCHES AQUARELLE ARTISTS BLOCKS

Top quality artists blocks with the popular 100% rag Arches watercolour paper. Available in 140lb (300gsm) HP, NOT and Rough. 140lb blocks have 20 sheets. 300lb blocks have 10 sheets.

What is Cartridge Paper? The most popular surface for drawing and sketching is cartridge paper. There are many types of cartridge paper available. The most popular papers are often white with a slightly toothed surface and are of a light to medium weight. Internally sized papers can be used quite well for drawing and sketching but a harder, surface sized paper is necessary if a lot of rubbing out and reworking is required.

The degree of coarseness or tooth of cartridge paper also has a direct impact on the character of your work and how the final image will appear.

Ampersand's flawlessly prepared rigid surfaces allow painting from edge-to-edge, eliminating unsightly stretcher bars impressions or the "trampoline effect" of ordinary canvas. Ampersand has been tested to last over 200 years

#### AMPERSAND GESSOBORD

Does not dull colours and the wonderful lightly sanded surface provides exceptional brush control. Made with Ampersand's 1/8" True Artist Hardboard and Archiva-Seal technology, the surface is acidfree, non-yellowing, and archival. For use with oil paints, acrylics and mixed media.

INVISI is a revolutionary lightweight picture display easel, enabling effective table displays without the fear of toppling. INVISI packs flat for easy storage and transportation. The product was initially designed for Art Clubs but is also ideal for solo artist exhibitions and for use by galleries. The product uses structural plastics and is very strong when erected. If you fold and store your Invisi Easels flat and in a box they will last many years if cared for.

INVISIs are designed to hold pictures with a backing board, but can hold canvas as long as there is something at the back for the supports to lean on. INVISI's will not hold 3D canvas. Max picture height approx 24" INVISI's can hold lighter pictures (eg. Unframed canvas board) up to about bout 24" high. If the picture is heavier (eg. Framed with glass) the maximum height will be less, depending on the weight of the picture. For very wide pictures it may be advisable to use an INVISI on each end of the picture. The INVISI can hold pictures/canvas up to a maximum of 1.5" deep, although we do not recommend it to hold chunky canvas as it may

Stretch your watercolour paper (up to 140lb) and dry it 'tight-as-a-drum' in minutes and it will not cockle or pull away no matter how wet the wash. The board is made from top quality wood and comes with 4 plastic gripper rods and full instructions.

This is a simple and certain way to use lightweight paper and save time and money with no fuss. The boards are available in full imperial (20" x 28"), 1/2 imperial (13.5" x 20.5") and ¼ imperial (9.5" x 13.5") sizes. They are ideal for use with the 1/4, 1/2 and Full imperial watercolour paper.

# PERFECT PAPER STRETCHER

THE EASY WAY TO STRETCH PAPER

The paper stretcher was invented in 1943 by Ken while he was stationed near Bletchley during the second world war, and is now used by artists all

Listen to what some say...

- "Brilliant! Why didn't anyone think of this before?"
- "Every watercolourist needs one."
- "Its ended my paper stretching nightmare!"
- "Watercolour boards and 300lb paper are a thing of the past."

the board.

After soaking paper, position the board over the paper.

Remove excess moisture

(with a cloth or towel) and

pinch the corners of the paper to follow the edges of

Secure paper by tapping the four rods into the grooves around the board.

#### STEP 4

STEP 3

The paper can be dried immediately using a hair dryer or heater. Alternatively, can be left to dry naturally.
