

LOXLEY Sussex Easel

Item ref. **EL-695**

Thank you for choosing your Loxley Easel, we trust that it will be your reliable painting partner for many years to come!

To aid the safe transportation of the Sussex Easel, we put the canvas mast upside down in the carton. Before using for the first time, turn the mast over and slide up from the base through the aligning points marked on the picture. The easel will need to be folded flat to allow this.
